## SLIDING SECURITY SCREEN DOORS

**S**pensa screens have designed sliding security doors with SS Mesh, cordless and locking mechanism. Sliding security screen doors have a unique centralised operation, allowing these to be opened from either side (left or right of the center) and stopped in any position. The square holes provide effective ventilation and prevent small insects and mosquitoes.

The mesh width is 50 mm/75mm, with a maximum stretchable angle of 168 degrees/180degrees. Spensa security doors use steel wheels on the top and bottom rails for smoother movement. These rails are dust-resistant and have longer durability. The security mechanism uses a weather strip and magnetic strip to completely seal the door. The security door enhances the home décor.

### POWDER COATED COLOURS

BC Brown, Golden Brown, Teak Brown, Ivory and Wooden finish.  
Available Mesh Colours : Charcoal-black and Grey.

### FEATURES

**Z**ip Screen is an Australian-designed and manufactured and features the latest in technological innovation, ensuring the finest outdoor shade solution.

Zip Screen's head boxes are manufactured from high-quality aluminium featuring a modern, square profile. The versatile installation options offer either a full or semi-enclosed cassette or fascia configuration. The fabric is concealed by the channels, and z-LOCK securely fastens the fabric in position, creating a strong, streamlined finish. With precision integration, the zip-guided system ensures zero gaps between the fabric and channel while ensuring effortless operation.

## PLEATED SCREEN DOORS & WINDOWS

**S**pensa pleated screens offer a stylish solution to screen doors and windows for all openings. Side, top, and bottom guides and wires with a hidden tension system retain the pleated mesh within the screen rails, while integrated runners at the ends of the bottom rails ensure the screen is smooth and easy to operate. Spensa insect screen profiles, guides, and handle rails are all powder coated to match your existing joinery.

**Available Pleated Series :** 25 Series, 30 Series, 32 Series, 34 Series & 40 Series

High quality polyester pleated mesh

Easy usage and maintainace free

## PLEATED HONEYCOMB DOORS & WINDOWS

**H**oneycomb blinds and partitions are fabrics with aluminium profiles that can be used as partitions, window coverings, and door covering solutions. All fabrics are made from non-woven or spun-bonded polyester and will not fray or fade. All fabrics are easy to care for, highly durable, sponge washable, and dust resistant. Spensa energy fabrics have a wide range of insulation and light values, keeping you warm in winter and cool in summer. Pleated honeycomb blinds can be used in home theatre setups, office partitions, living spaces, and office cubicles.

**Available Fabric Colours:** Ivory, Grey & Blue

High quality fabric

Water resistant

Strong polyester strings

Easy clean and easy care

FEATURES

## ROLLER/RETRACABLE SCREENS

**S**pensa Screens Roller windows are fitted with an attractive, matching headbox, so the insect screen can be rolled away neatly, when not required. With a choice of two head box systems (40mm or 50mm) Roller window screens combine modern design with durable functionality. A seal along the bottom rail prevents damage to the window sill. The head box, side channels and bottom rail are all powder coated to match your existing joinery.

**Available Roller :** 40 Series and 50 Series  
**Available Mesh :** Charcoal-Black and Grey

### FEATURES

Low Maintenance	Adjustable Handle Heights
Flexibility of Sizes	Top & Bottom Insect Piling
Stainless Steel Spring	Full Length Rust-Proof Magnetic Seal

## FLY SCREEN DOORS

**S**pensa Fly Screen Doors do not hinder the view instead provide ventilation and protection from insects and are a unique addition to any home. Spensa fly screens can be manufactured for all types of doors and windows and our high-quality components ensure years of trouble-free operation.

Door frames have bottom kick plate with center mid bars. The screens are suitable for all types of doors & windows including hinged, center pivot, balconies, utility, kitchens, French doors, etc. All of the frame profiles are powder coated/anodized which are easy to clean, smooth & rust free.

**Available Mesh :** SS 304/Black, Natural,  
 Aluminium mesh & Fibre Glass.

### Available Fly Mesh Door Series :

32 Series	35 Series
45 Series	50 Series

# Value For Money

## SLIDING SCREEN DOORS & WINDOWS

**S**liding insect screen doors are lightweight and economical, ideal for screening in aluminium or timber sliding door joinery. The low installation depth of the external tracks makes them very neat and versatile. Sliding screen is the preferred insect screen solution in applications where wind gusts can be a problem for other types of screens.

A combination of strong aluminum corners and non-visible adjustable bottom rollers make for a sturdy and smooth sliding insect screen. A slim-line matching vision rail helps prevent children from accidentally running into the screen. Powder coated aluminium frames are colour matched to your existing joinery.

Sliding screen systems can be used on existing doors & windows like Upvc, Aluminium, Steel, Wood by attaching appropriate Adopter profile without disturbing the view.

### Available Sliding Series:

80 Series

60 Series

45 Series

40 Series

### FEATURES

Safety

Durable

Space saving

Harmonizing indoor and outdoor spaces

Enjoy the View & Still be secure

## INVISIBLE GRILLS

Invisible grille is the installation of stainless-steel cables to cover windows, balconies, or open areas of high-rise buildings. They are an advanced grilling system that keeps homes safe and beautiful. It is made of high-quality stainless-steel cable (316L grade) and nylon coated with a nanotechnology membrane for complete wear and tear resistance. The cable distance can be 2", 3" & 4" (inches) and installation can be vertical or horizontal.

### FEATURES

Safe and Secure

Unblocked View

Zero Maintenance

High tensile strength

Easy clean & Easy care
